CONTENTS

Volume 78, Number 1, 1994

L. A. Aĭzenberg and A. M. Kytmanov, On the possibility of holomorphic extension, into a domain, of functions defined on a connected piece of its boundary. II 1

G. A. Karagulyan, On the order of growth $o(\log\log n)$ of the partial sums of Fourier-Stieltjes series of random measures 11

M. F. Sukhinin, On three principles of solvability of operator equations 35

A. A. Il'in, Partly dissipative semigroups generated by the Navier–Stokes system on two-dimensional manifolds, and their attractors 47

V. A. Prokhorov, On a theorem of Adamyan, Arov, and Kreĭn 77

G. S. Balashova, On conditions for extending the trace and imbedding for Banach spaces of infinitely differentiable functions 91

V. A. Oskolkov, On some questions in the theory of entire functions ... 113

A. Dress and S. S. Ryshkov, Some systems of generators of the group $\mathrm{GL}(n,\mathbb{Z})$ for $n \leq 5$ 131

V. A. Prokhorov, Rational approximation of analytic functions 139

K. V. Runovskiĭ, On families of linear polynomial operators in L_p-spaces, $0 < p < 1$ 165

S. D. Furta, On asymptotic solutions of systems of differential equations with deviating argument in certain critical cases 175

Le Ty Kuok Tkhang, Varieties of representations and their cohomology-jump subvarieties for knot groups 187

S. G. Lobanov, Peano's theorem is false for any infinite-dimensional Fréchet space 211

A. A. Arkhipova, Partial regularity of solutions of quasilinear elliptic systems with nonsmooth condition on the conormal derivative 215

P. V. Paramonov, C^m-approximations by harmonic polynomials on compact sets in $\mathbb{R}^n$ 231

K. G. Malyutin, The problem of multiple interpolation in the half-plane in the class of analytic functions of finite order and normal type .. 253

Volume 78, Number 2, 1994

M. I. D'yachenko, Norms of Dirichlet kernels and some other trigonometric polynomials in L_p-spaces 267

A. A. Nechaev, Cycle types of linear substitutions over finite commutative rings 283
R. K. Seĭfullaev, Integral operators of potential type and their boundary properties 313
G. V. Grishina, Behavior of solutions of a nonlinear variational problem in a neighborhood of singular points of the boundary and at infinity 333
A. Tungatarov, On the theory of the Carleman-Vekua equation with a singular point 357
Yu. S. Kolesov, Bifurcation of invariant tori of parabolic systems with small diffusion 367
E. I. Khukhro, Local nilpotency in varieties of groups with operators ... 379
S. N. Kudryavtsev, Recovery of the values of harmonic functions at a point from their values at other points 397
E. M. Matveev, On linear and multiplicative relations 411
V. M. Prokip, On common unital divisors of matrix polynomials over an arbitrary field 427
I. V. Zhuravlev, Sufficient conditions for local quasiconformality of mappings with bounded distortion 437
K. S. Abdukhalikov, Integral invariant lattices in Lie algebras of type A_{p^m-1} 447
L. M. Lerman and Ya. L. Umanskiĭ, Classification of four-dimensional integrable Hamiltonian systems and Poisson actions of $\mathbb{R}^2$ in extended neighborhoods of simple singular points. II 479
F. Kh. Mukminov, On the rate of decay of a strong solution of the first mixed problem for the system of Navier-Stokes equations in domains with noncompact boundaries 507
Correction to Volumes 76 and 77 525
